

Project Initialization and Planning Phase

Date	24 April 2024
Team ID	739942
Project Name	Freedom of the World Classification
Maximum Marks	3 Marks

Define Problem Statement:

Freedom of World Classification involves identifying and categorizing countries based on their levels of freedom, considering factors such as political rights, civil liberties, economic freedom, and social freedoms. Predictive analytics and machine learning techniques can be used to analyze large amounts of data to identify patterns and classify countries into different freedom levels..

I am	I'm trying to	But	Because	Which makes me feel
(Customer): Describe who you are or your role.	Describe the goal or task you are trying to achieve.	Describe the challenge or obstacle you are facing	Explain why this challenge or obstacle exists	Describe the impact of this challenge or obstacle on you

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Describe who you are or your role.	Describe the goal or task you are trying to achieve	Describe the challenge or obstacle you are facing	Explain why this challenge or obstacle exists	Describe the impact of this challenge or obstacle
